The image to the (Left) is riddels new product that alerts when enough G's are generated to cause a concussion

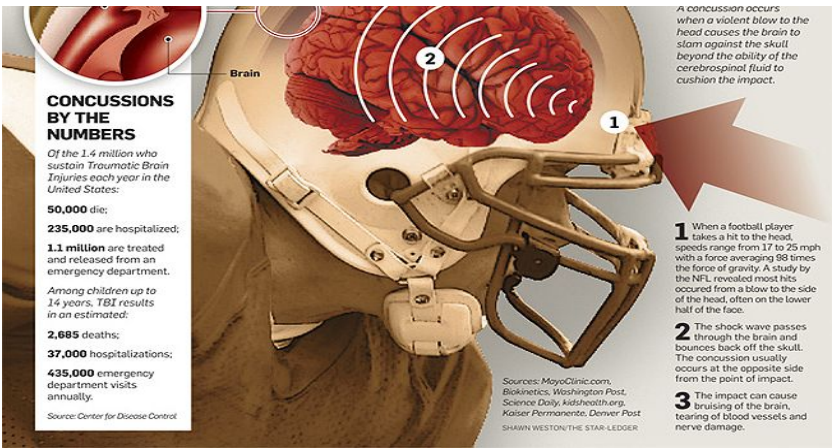

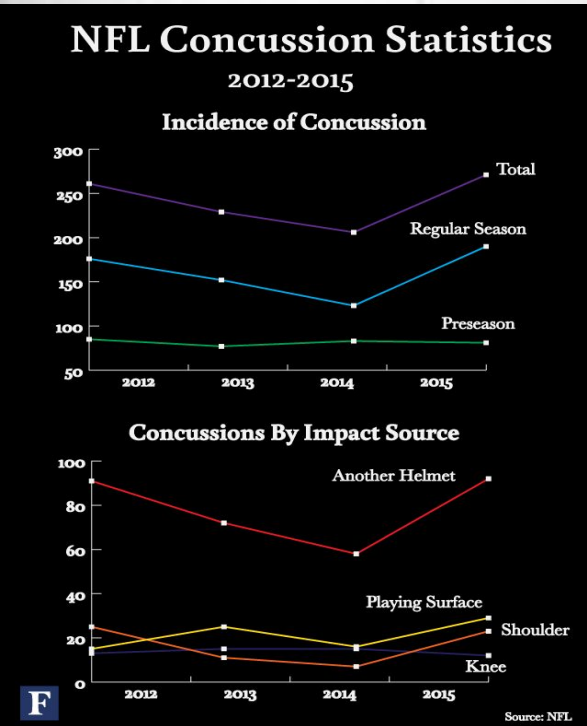

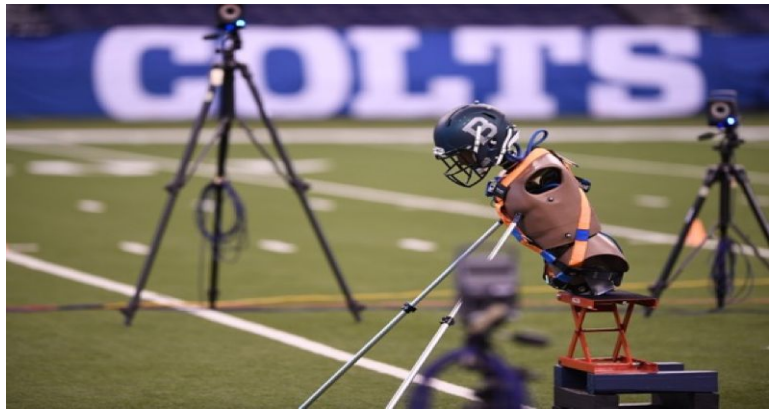

The image on (Top) is the newest and most advanced Helmet but the con of this is it costing up to \$2,000 dollars

My Computational Artifact

Computer science has had a big influence in the world for sports and preventing many new injuries but the biggest influence it has had on is in football with new computers and new programs helping many people in inventing new technology and helping us understand how injuries happen and how we can prevent it

The image on (Top) is what happens to the brain during violent collision and is shaken around with the CSF (cerebrospinal fluid)
